

# Faraway Places

*I'd like to fly to the moon one day,  
speed off in my rocket far, far away.*

*I'd land on the moon,  
jump out and explore.  
No gravity there,  
I'd leap and I'd soar.*

**The moon it would be  
a most marvellous place,  
but there's more to see than  
just outer space ...**

**I'd like to dive deep under the sea,  
to swim with the fish,  
and just feel free.**

**Octopus, stingrays and  
green turtles too,  
and bright schools of fish  
– red, yellow and blue.**

**It's magical under the sea  
you know,  
but there's one other place  
that I'd like to go ...**

**Antarctica would be amazing to see,  
with ice all around, and whales in the sea!**

**Huge glaciers,  
icebergs and penguins abound,  
seals on the ice, birds soaring around.**

**But freezing cold wind is not that much fun,  
so next I will visit a place with more sun!**
